

Modular sofa

BE A PART OF 857

Be A Part Of is a flexible modular sofa that can be arranged to suit different needs. Its inclusive design offers natural space for a wheelchair user. This gap can also be used for a stroller or luggage, or even social distancing.

The design of Be A Part Of focuses on the tactile interplay of wood and textile – frame colours and different fabric choices can be freely combined to achieve the desired contrast, harmony and colour experience. Another tactile feature is the recessed profile in the front edge of the armrest, which creates a feel of materiality and security that may also provide positive distraction.

For the best hygiene, Be A Part Of has removable and washable upholstery, as well as a gap between the seat and back to prevent dirt and bacteria entrapment.

This furniture family is crafted in FSC-certified wood and carries the Möbelfakta label.
